**Terms & Conditions**

- It is your responsibility to insure your blades. TKS is not liable for the cost of blades lost/damaged in transit by shipping carriers.
- All blades must have either an identifying name or logo permanently stamped or etched on blade or tang, or an outline of your blades on the back of this form or a separate piece of paper, to help us keep up with your blades.
- Blades must be completely clean of all tape, buffing residue, and anything else that will melt below 2500°F / 1375°C.
- Protect your points from damage to the blade or packaging during shipping, by wrapping in paper and taping or stapling it shut.
- All blades must be in our office by Monday at 5:00pm Central Time to be entered for heat treatment Tuesday morning. Cryo treatment is on Wednesday. We make every effort to ship the blades that have been treated on or before the following Tuesday.
- We will not charge your card until the final price is determined to ship your blades back to you. We will not ship your blades until we have received a method of payment. You may provide this information over the telephone if you wish.
- We guarantee that every possible effort will be made to give each blade the best combination of hardness and toughness through the proper use of equipment. However, if a blade is damaged due to our handling or equipment malfunction, our liability is limited to the replacement of an equal amount of the same steel used in the damaged item. Any further responsibility will not be accepted nor will we be responsible for warpage due to unequal grinding or grinding the blade thinner than 0.010". We also reserve the right to refuse any blade that could have serious heat treating or warpage problems we could not correct.
- We will not process your order without your signature, indicating you have read and agree to our terms.
